

SD350

D i g i t a l D u p l i c a t o r

(quality)

(productivity)

(economy)

The Standard SD350 makes printing easy, fast, and economical. It is the ideal solution for meeting an organization's demanding printing requirements. Meeting printing needs has never been easier or more cost efficient. Combining the latest technology advancements with Standard's hallmark reliability and print quality, the SD350 will produce years of exceptional performance and cost savings.

SD350 Digital Duplicator

The Standard SD350 is an exceptional digital duplicator. Perfectly designed for high volume, multi-user locations, its impressive array of features and low cost per copy performance makes it the ideal printer for virtually any school or institution. The SD350 truly delivers quality, convenience and economy.

With fast printing speeds of up to 130 copies per minute and unparalleled reliability, the SD350 is ideal for any organization that requires a low cost printing solution. Its many advanced features include a glass platen for easy versatile book copying, spot color printing capability, as well as simple to operate computer connectivity options.

Simple Operation

The user-friendly control panel lets the operator produce jobs quickly and confidently. The SD350's easy to read LCD display keeps the operator informed of key functions including supply level status, image positioning and error conditions. Furthering simplicity and adding to its productivity is fast, clean and easy supplies replacement.

Easy Book Copying

The glass platen of the SD350 allows for copying from single sheets, bound documents and 3D objects. With its built-in Shadow Erase Function, dark lines and shadows that can surround a copied image from books and other thicker documents can easily be eliminated to produce clean, sharp, clear copies no matter the size or thickness of the original. To further increase productivity and user convenience, simply add the optional document feeder.

Unique Built-In Features

Innovative features that enhance the SD350's performance include:

- Simplified feed pressure control enables exceptional paper feed reliability on virtually any stock from light weight carbonless forms up to cards and envelopes.
- Enhanced security and economy in Confidential Mode by locking out unauthorized printing without master waste.
- Auto image rotation function allows two separate documents to be combined side by side onto one sheet.
- Variable speed control allows you to select from 80-130 page per minute printing.

Print Direct From The Desktop

Enabling digital connectivity to virtually any PC is quick and easy with the SD350's optional embedded controller. Connectivity to MAC and networked systems is also readily performed with the optional network compatible controller. Computer connectivity provides printing convenience and superior print quality.

Specifications

First Copy Time:	27 seconds
Printing Speed:	80 - 105 - 130 sheets per minute
Scanning Resolution:	300dpi (300 x 400 dpi in Fine Mode)
Paper Size:	3.5" x 5.8" to 10.6" x 15.4"
Paper Weight:	13 to 110 lbs.
Image Area:	8.3" x 13.9"
Paper Tray Capacity:	1000 sheets (20 lb. Bond)
Master Roll Capacity:	260 masters/roll
Master Eject Tray Capacity:	60 - 70
ADF:	Optional
ADF Capacity:	30 originals (13 - 32 lbs.)
ADF Original Size:	5.8" x 4.1" to 10.1" x 14.4"
Print Colors:	Unlimited through Standard Custom Match

Print Direct From a PC

Choose the right computer interface option to help create the absolute best print quality and turn the SD350 into a high production, high quality printer with spot color capability.

Sharp Photos, Lines and Text

Sophisticated image reading software automatically recognizes and separates line, text and photo/graphic areas. Additionally, using the Fine Mode feature allows for lines to be printed with sharper clarity (300x400 dpi).
